

黄佳

1964年出生于长沙，现生活、工作于深圳。

黄佳的早期作品受到了弗朗西斯·培根、保罗·德尔沃、卢西安·弗洛伊德等人的影响，注重自我的表达和构建。从2007年起，黄佳通过将最简单的凹凸点有序排列组合，来验证不同心理特点和集体无意识等，一般都会经由最为简洁的视觉符号进行传递和渗透。黄佳运用极简的点、线、面，制造更大的想象空间。面对画面中的空白，观者的想象成为作品的一部分。在单色、几何、极简和冷静之下，作品依然能传达出温暖、柔和与人性。

HUANG Jia

Chinese, b.1964, Changsha, lives and works in Shenzhen.

Huang Jia's early works were inspired by Francis Bacon, Paul Delvaux and Lucian Freud, focusing on self-expression and construction. Since 2007, by combining basic concave and convex forms in differing permutations, she has attempted to demonstrate, that varying psychologies and the collective unconsciousness can be transmitted through the simplest visual symbols. Homochromous, geometric, minimalist and calm, her work nevertheless conveys a warmth, a softness and overall a touching sense of humanity.
